Circles Multi Affiliate Group Registry Audit

This document presents the findings of a smart contract audit conducted by Côme du Crest for Gnosis Ltd.

Scope

The scope includes the new `MultiAffiliateGroupRegistry` contract of repository `aboutcircles/circles-groups` as of commit `0xf8c4cf9`.

Context

The context is given in [this Notion document](#).

Users can emit an intent to join / leave an affiliate group by interacting with the registry. They can have multiple affiliate groups and no checks are performed on-chain regarding the intent to join such groups.

The `initialize()` function is meant to migrate from the previous registry where users could only have one affiliate group. As such the function takes a list of avatars and groups and set up the intent for the user to affiliate with the group. The function will replace the earlier group if any where present in the `affiliateGroupList` but the function is not intended to be used when there are already affiliated groups or to affiliate multiple groups to a single avatar.

Status

No issues have been found.

The report has been sent to the core developer.

Legal Information And Disclaimer

1. This report is based solely on the information provided by Circles, with the assumption that the information provided is authentic, accurate, complete, and not misleading as of the date of this report. Gnosis has not conducted any independent enquiries, investigations or due diligence in respect of the Company, its business or its operations.
2. Changes to the information contained in the documents, repositories and any other materials referenced in this report might affect or change the analysis and conclusions presented. Gnosis is not responsible for monitoring, nor will we be aware of, any future additions, modifications, or deletions to the audited code. As such, Gnosis does not assume any responsibility to update any information, content or data contained in this report following the date of its publication.
3. This report does not address, nor should it be interpreted as addressing, any regulatory, tax or legal matters, including but not limited to: tax treatment, tax consequences, levies, duties, data privacy, data protection laws, issues relating to the licensing of information technology, intellectual property, money laundering and countering the financing of terrorism, or any other legal restrictions or prohibitions. Gnosis disclaims any liability for omissions or errors in the findings or conclusions presented in this report.
